

COPRA[®]

Roll Design and Analysis Service

COPRA Roll Analysis Service

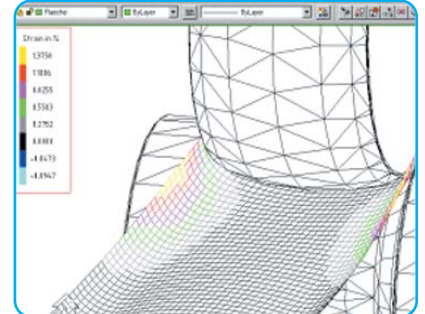

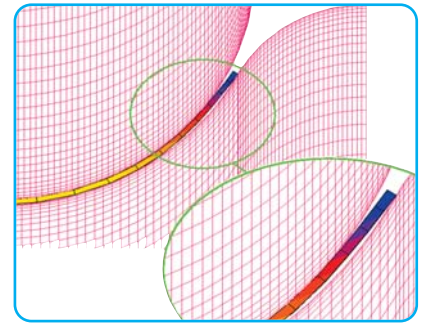

You have a problem in your roll set?

We find the solution for it!

We do not fight symptoms but...

...we try to find out and avoid their causes

- Analysis of existing forming and shaping passes
- Analysis Report with suggestions how to solve a problem
- Get the actual geometry of existing rolls with the COPRA® RollScanner
- Compare the designed roll with the scanned roll (fingerprint)

COPRA Roll Design Service

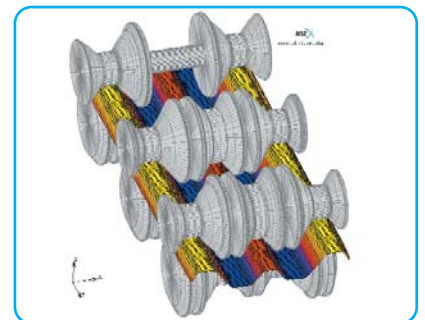

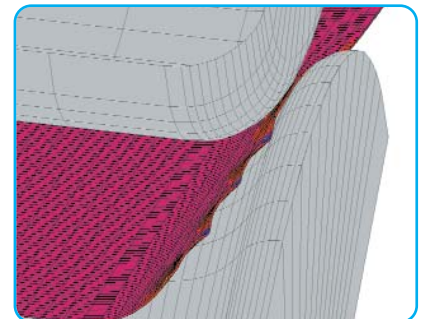

You need a shaped or round tube?

We do the roll design for you!

You need a roll formed section?

...we design rolls for all kinds of tubes and open sections

- Design and conception of the flower
- Longitudinal Strain Check
- Roll Design
- Verification by FEA-Analysis
- Dimensioning of single rolls and assembly plans

Additional Solutions from data M Sheet Metal Solutions

- COPRA® Design and consultancy services
- COPRA® ProfileChecker
Quality Control Hardware
- COPRA® Roll Form Design Software
- COPRA® for Wire Rolling
- COPRA® for Tube Drawing
- COPRA® DBMS
Database Management System
- COPRA® MetalBender
Sheet Metal Design and unfolding Software
- COPRA® LaserCheck
Sensor for Bending Machines
- Vision Systems
- Hexapod Robots
- Software Development
